

State Pension statement

Department
for Work &
Pensions

Please tear off and keep for your information

What is a State Pension statement?

A State Pension statement will give you an estimate of how much State Pension you may get when you reach State Pension age. The estimate will be based on your National Insurance contribution record as it stands on the date the statement is produced.

Your State Pension statement is not a guarantee. The amount you get when you claim your State Pension may be different from the amount on your statement. You may want to get financial advice before making decisions based on your State Pension statement.

Who can get a State Pension statement?

You can get a State Pension statement if you are aged 16 or over and at least 30 days away from your State Pension age when we look at your application.
